

VISUAL ARTS DESIGNATION

REESE LEGAN

ARTIST'S STATEMENT

Towards the beginning of the year I decided that I wanted to pursue my love for creating in a new way. Transferring from photography to sewing/garment making was a huge jump. Through lots of reflection and 'trial and error' I landed on creating garments out of unconventional items. I pursued a sustained investigation upon how I could make various materials work as fabric in a garment. Creating the illusion of fabric was no easy task but my final products display my evolution and connection with the materials.
